## Our Beliefs

We maximize the returns we deliver to our clients through continual efforts to uncover innovative investment ideas, and strict limits to our capital base.

Bogle Investment Management is an employee-owned investment boutique founded and SEC registered in 1999. The firm was established with the goal of adding value for a select group of institutional clients by identifying and exploiting innovative investment ideas across global markets. Today, the firm manages absolute return and small cap long-only investment strategies for some of the world's most sophisticated investors. As co-investors with our clients, we are mindful of capacity constraints and have a demonstrated record of closing strategies at conservative levels of capital.
