## OUR MISSION

Columbus Circle Investors manages U.S. growth equity portfolios for the benefit of our institutional clients, allowing them to achieve their goals of stable retirement benefits, endowed scholarships and charitable giving, amongst other worthy objectives. By combining the personal touch of a boutique firm with the global presence of our parent company, Principal Global Investors (PGI), we are well poised to continue delivering value for our investors over the medium to long term, enhancing the image and sustainability of the organizations we serve.

To accomplish these goals we strive to outperform our growth equity benchmarks over a 3-5 year market cycle by creating and nurturing a boutique culture of professional development, collaborative thinking and success-based financial incentives allowing CCI to achieve a high level of continuity among its investment professionals.
