Mutual fund investing involves risk. Principal loss is possible. The FundX Upgrader Funds ("Funds") are considered "funds of funds" and an investor will indirectly bear the principal risks and its share of the fees and expenses of the underlying funds. Shareholders will pay higher expenses than they would if they invested directly in the underlying funds. The Funds employ an "Upgrading" strategy whereby investment decisions are based on near-term performance, however, the Funds may be exposed to the risk of buying underlying funds immediately following a sudden, brief surge in performance that may be followed by a subsequent drop in market value. The Sustainable Impact Fund's sustainable impact investment

policy, which incorporates an analysis of environmental, social and corporate governance factors, may result in the Fund foregoing opportunities to buy certain Underlying Funds when it might otherwise be advantageous to do so, or selling its holdings in certain Underlying Funds for sustainable impact investment reasons when it might be otherwise disadvantageous for it to do so. The Funds are subject to the same risks as the underlying funds and exchange-traded funds in which they invest including the risks associated with small companies, foreign securities, emerging market, debt securities, lower-rated and non-rated securities, sector emphasis, short sales and derivatives. ETFs are subject to additional risks that do not apply to conventional mutual funds, including the risks that the market price of an ETF's shares may trade at a discount to its net asset value, an active secondary trading market may not develop or be maintained, or trading may be halted by the exchange in which they trade, which may impact a Fund's ability to sell its shares.

Past performance does not guarantee future results. While the Funds are no-load, management fees and other expenses will apply. The Fund is offered only to United States residents, and information on this site is intended only for such persons. Nothing on this web site should be considered a solicitation to buy or an offer to sell shares of the Fund in any jurisdiction where the offer or solicitation would be unlawful under the securities laws of such jurisdiction. Before you invest in the FundX Funds, please refer to the ***prospectus*** for important information about the investment company, including investment objectives, risks, charges and expenses. You may also obtain a ***prospectus*** by calling 866-455-3863. The prospectus should be read carefully before you invest or send money.

Fund holdings and sector allocations are subject to change and should not be considered a recommendation to buy or sell any security. Click the following links to view the funds' top 10 holdings: HOTFX, FUNDX, SRIFX, RELAX, TACTX, INCMX.
