[Our service](#)

Established in 2000 as an independent brokerage firm, Maplewood Investment Advisors has the advantage of being unshackled from the products and platforms big-name firms push on their clients. Maplewood has the freedom to provide each client with investment flexibility and product impartiality.

Our Mission is simple. Combine decades of experience with the latest technology to provide each client the best possible investment advice that achieves your goals. No matter where you are on life's journey, we will help you get to where you want to be.

Maplewood Investment Advisors is dedicated to delivering accurate, efficient, and friendly service. Just because it is work, it doesn't have to be a chore!

Markets and economy—opposing forces

Whether one buys a business or franchise, the cash flow the company generates and is expected to generate will play a big role in how much one might pay for the company. While other factors play a role, the same holds true for a stock, i.e., a publicly traded company

April 2018 Newsletter (/maplewood- newsletter/2018/5/16/april-2018- newsletter)

Last year, stocks marched higher with only minor pullbacks. When the year ended, the largest peak to trough decline for the S&P 500 Index was just under 3% (St. Louis Federal Reserve data on the S&P 500). It was a year that lacked turbulence and one that rewarded diversified investors.

Since the beginning of February, volatility has returned. It's a reminder that periods of relative tranquility don't last forever
