

Investment Wisdom and Planning Advice

Bringing together the art and science of financial services.

Our Differentiator is Our Story

Where we have been informs the way we serve clients today. Since 1974, Century Management has offered personal wealth management services to our clients, as well as serving the investment needs of institutions. Our longstanding experience is our guide.

Our Founder: Arnold Van Den Berg

In 1968, [Arnold Van Den Berg](#) began his investment career as the U.S. stock market was experiencing its worst decline since the Great Depression. Arnold spent these difficult years studying Wall Street, the market, and various investment philosophies. He concluded that the managers who used a value-based investment strategy both protected their clients' capital better and provided more consistent investment results than managers using other investment strategies.

In September of 1974, Arnold started his own investment advisory business based on a [value-investing approach](#). This investment philosophy not only had a history of producing sound results but also was consistent with how he lived his personal life.

From humble beginnings, [Arnold Van Den Berg](#), a Holocaust survivor, learned at an early age what it means to work hard, to sacrifice, and to help others. It is his spirit of helping that has shaped the way he has lived his life and runs the business. Each [individual](#) who has joined Century Management shares Arnold's values and passion to truly help others reach their goals. It is what has defined our success.
