The ABCs of BDCs and CEFs Replay

Download Slides in PDF Format

Closed-End Fund Advisors ("CEFA") is a fee-based Registered Investment Advisory firm founded in 1989. Known as *"The CEF Experts,"* Closed-End Fund Advisors has its corporate headquarters in Richmond, Virginia and reflects over 65 years of combined investment experience in [closed-end funds](#) ("CEFs"), and other investment vehicles.

CEFA's primary business is discretionary asset management. As a global manager of managers, we build portfolios for individual and institutional clients, through either direct work with clients or through financial advisors and planners. To learn more about our firm, download our [firm's profile presentation](#).

Free CEF/BDC Fund Profile

CEFA's global investing utilizes a value approach of reasonable risk-taking, tempered by careful analysis of all the underlying factors before investing in potentially more than 40 markets worldwide.

February 2018

CEF Advisors' 30+ CEF/BDC Indexes: We recently launched 30+ indexes cover the entire closed-end fund (CEF) and business development company (BDC) universe. The indexes cover both bond and equity sector indexes as well as diversified portfolio objective indexes. The indexes are priced daily from our internally collected CEFDData.com research system and database launched in 2012. Data will be available on the indexes for additional benchmarking purposes including weighted discount, yield, leverage, duration, beta and other metrics for the underlying constituent funds. The indexes will be rebalanced quarterly. The indexes were developed to help us monitor our client portfolios as well as help our research/data clients and peers better benchmark themselves.

The firm's index project can be monitored via: www.cefddata.com/index. We offer a performance table and a data table webpage summarizing each index. Clicking on each indexes' name opens a detailed page containing the following information: 1. Index Methodology, 2. Market Price and Net Asset Value Performance, 3. Discounts, 4. Data Characteristics, 5. Holdings' Asset Allocation, 6. Constituent Funds, and 7. Daily index market price and net asset value pricing.
