### *Scott Streed, CFP®*

My objective is to manage investment portfolios for investors who want the potential for the most amount of return, with the amount of risk they can handle. This quantitative process takes the emotion out of investing. If you want to continue to buy-and-hold and pay no attention to your account, I don't have a problem with that. My offer to you is that I may have the potential to make you a better investor by using technology to expand your choices, select them based on relative strength, and allocate them on a rules based non-emotional approach. All it takes is 10 minutes of your time in front of your computer screen to explore some potential advantages to the techniques and procedures I can offer you. You have no obligation.
