Introducing **Lattco AutoPilot**

[Get Started Now » \(SignUp.aspx\)](#)

Do you secretly wish Lattco and Lattco PRO could do 'MORE' to AUTOMate investing and portfolio management based on the Snider Method so you could maximize your monthly income and spend even less time on trade day?

Maximize Your Income with A Powerful New Tool

(https://

Boost option premiums with our BRAND NEW Limit Order trade order form. Use the tool to reduce the spread between the bid and ask to earn extra income

Limit Order Trade Tickets

The spread between the bid and the ask presents call sellers an opportunity to earn more income by placing a limit order instead of the market orders we historically placed. Our tool automatically generates a limit order form when an option order has the potential for additional income and suggests a modification if the order doesn't execute immediately.

Never Miss a Covered Call Opportunity

One of the most commonly missed trades in the Snider Method is selling a second, or even third, Bundle call order. AutoPilot automatically scours the options chain and your available shares to sell every Bundle available.

Never Skip a Position by Accident

Have you ever been doing your Sunday Evening Bookkeeping and realized you forgot to trade a position? This potentially costs you hundreds or thousands of dollars. A step-by-step trade wizard takes you through EVERY positions, and a "Mark Complete" system checks-off each position as your place you trades on Trade Day.

Minimize the Time You Spend Trading Spend More Time Doing What You LOVE

Reduce the time you spend trading your Snider Method accounts by over 50%! Most of our clients get their trades done in just a few hours, but some clients with larger accounts were struggling to get all their accounts traded in one day. Your time is valuable, and we've built a way for your to enjoy more of it!

Never Type In an Order Again

EVERY trade suggested in a pre-filled order form ready to submit with two simple clicks

Instant Access to Option Chains

One click access to the option chain with no need to type in a symbol or pick an expiration.

No Fumbling Between Multiple Websites

No more back and forth between updating activity, place a trade, reviewing the checklist and scoring option chains. EVERYTHING is one click away all right inside of Lattco AutoPilot

Pre-Filled Symbols and Quantities

Forget the symbol? Not sure how many shares to buy or calls to sell? Every trade suggested EXACTLY according the rules of the Snider Investment Method (<https://www.snideradvisors.com/>).

Automatic Bundling Suggestions

Pulling up option chains, checking strikes and bid prices, and saving Bundles all takes time. Lattco AutoPilot instantly walks you through each Bundle trade.

Simple Trading Wizard

Always know exactly what positions are traded and which ones remain. Our comprehensive trading wizard walks you through EVERY trade for ALL your positions.

Enjoy trade day!
