Trade Troubles (<https://acrinv.com/trade-troubles/>)

As noted above, the big story last week was about the on-again-off-again trade deal between the US and China. It's impossible to know where the deal goes from here, but the options are basically as follows: Talks Continue. The negotiation deadline could be extended as it was before with tariffs frozen and additional sanctions possible. The status quo should be stabilizing for markets for a while, despite the policy uncertainty....
