

# SINCE 1974,

**RICE HALL JAMES** has been privileged to serve as an investment manager for institutional investors and private clients. Our core competency is constructing portfolios of micro- to SMID-capitalization stocks, and our unique investment process relies on bottom-up, fundamental research to identify compelling stories of undervalued or undiscovered growth within this universe.

As an independent, 100% employee-owned firm, we are free to focus solely on investing. We seek to uphold a culture that rewards both collaboration and independent thinking and fosters partnership with each institution and individual we serve.
