Commissions, trailing commissions, management fees and expenses all may be associated with mutual fund investments. The indicated rates of return are the historical annual compounded total returns including changes in security values and reinvestment of all distributions, and do not take into account sales, redemption, distribution or optional charges, or income taxes payable by any securityholder, which would have reduced returns. Mutual funds are not guaranteed and their values change frequently. Money market funds are not covered by the Canada Deposit Insurance Corporation (CDIC) or by any other government deposit insurer. The performance data provided for money market funds assumes reinvestment of distributions only and does not take into account sales, redemption, distribution or optional charges, or income taxes payable by any securityholder, which would have reduced returns. There can be no assurances that the money market funds will be able to maintain their net asset value per security at a constant amount or that the full amount of your investment in the funds will be returned to you. Past performance of mutual funds may not be repeated. Please read the prospectus before investing. Copies are available from your advisor or Invesco Canada Ltd.
