

Investments LLC

[fän-tis] *noun*
source, origin, eternal springs

FONTIS INVESTMENTS

A BOUTIQUE INVESTMENT ADVISORY

Fontis Investments is a Minneapolis-based, independent wealth manager serving a select number of families and institutions. We pride ourselves in process-oriented identification of client goals and expectations. Then, we use exhaustive research with a proprietary model of investments to help clients achieve their goals.... not ours. Isn't it time you were connected to your investments, rather than having them connected to your advisor's "Hot Product"?

Transparent. Liquid. Connected.

Founded in 2012, Fontis Investments is an independent wealth management boutique with a strong history of delivering highly customized investment advice and financial confidence. Our risk-averse investment philosophy is centered on preserving and growing our clients' assets. At Fontis, client interests always come first and foremost.
