

We are ready

Our award winning team has unrivalled expertise in sub-investment grade corporate debt.

Together, we are stronger

Knowledge can mean the difference between success and failure. At Alcentra we share our broad experiences, question one another's assertions, and encourage knowledge to be passed around.

No place for novices

There is no substitute for experience. Our investment professionals each have long experience of the credit markets through the cycle and use this skill to identify the best opportunities for our clients.

Maximising opportunities

Opportunities only present themselves to those ready to seize them. Working from our offices around the world, our analysts constantly strive to identify new investment ideas globally.
