# A Better Investing Model

CORE takes a different approach to investing, one based on the **science of capital markets** rather than conventional speculation.

We are **passionate** and **more focused** than other managers. We engage with our advisors and their challenges, helping them **build their businesses** in ways other competitors don't.

Our Advisors **feel assured** they can **access** our experts making the calls on the portfolios and get real, actionable answers to their concerns. Learn more (<http://www.corecapitallc.com/overview/>).

Request access to CORE's portfolios and DFA materials below. Once approved, you will receive an email with log-in details.
